**GCSE (9-1)**

**Biology B (Twenty First Century Science)**

**J257/03: Breadth in biology (Higher Tier)**

General Certificate of Secondary Education

**Mark Scheme for June 2019**

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

Mark Scheme

June 2019

Annotations available in RM Assessor

Annotation	Meaning
	Correct response
	Incorrect response
	Omission mark
	Benefit of doubt given
	Contradiction
	Rounding error
	Error in number of significant figures
	Error carried forward
	Level 1
	Level 2
	Level 3
	Benefit of doubt not given
	Noted but no credit given
	Ignore

J257/03

Mark Scheme

June 2019

Abbreviations, annotations and conventions used in the detailed Mark Scheme (to include abbreviations and subject-specific conventions).

<b>Annotation</b>	<b>Meaning</b>
/	alternative and acceptable answers for the same marking point
✓	Separates marking points
<b>DO NOT ALLOW</b>	Answers which are not worthy of credit
<b>IGNORE</b>	Statements which are irrelevant
<b>ALLOW</b>	Answers that can be accepted
( )	Words which are not essential to gain credit
—	Underlined words must be present in answer to score a mark
<b>ECF</b>	Error carried forward
<b>AW</b>	Alternative wording
<b>ORA</b>	Or reverse argument

**Subject-specific Marking Instructions****INTRODUCTION**

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

The breakdown of Assessment Objectives for GCSE (9-1) in Biology B:

	<b>Assessment Objective</b>
<b>AO1</b>	<b>Demonstrate knowledge and understanding of scientific ideas and scientific techniques and procedures.</b>
AO1.1	Demonstrate knowledge and understanding of scientific ideas.
AO1.2	Demonstrate knowledge and understanding of scientific techniques and procedures.
<b>AO2</b>	<b>Apply knowledge and understanding of scientific ideas and scientific enquiry, techniques and procedures.</b>
AO2.1	Apply knowledge and understanding of scientific ideas.
AO2.2	Apply knowledge and understanding of scientific enquiry, techniques and procedures.
<b>AO3</b>	<b>Analyse information and ideas to interpret and evaluate, make judgements and draw conclusions and develop and improve experimental procedures.</b>
<b>AO3.1</b>	Analyse information and ideas to interpret and evaluate.
AO3.1a	Analyse information and ideas to interpret.
AO3.1b	Analyse information and ideas to evaluate.
<b>AO3.2</b>	Analyse information and ideas to make judgements and draw conclusions.
AO3.2a	Analyse information and ideas to make judgements.
AO3.2b	Analyse information and ideas to draw conclusions.
<b>AO3.3</b>	Analyse information and ideas to develop and improve experimental procedures.
AO3.3a	Analyse information and ideas to develop experimental procedures.
AO3.3b	Analyse information and ideas to improve experimental procedures.

Mark Scheme

June 2019

Question		Answer	Marks	AO element	Guidance
1	(a)	A sensory neuron ✓ B motor neuron ✓ C relay neuron ✓	3	3x 1.1	Max one mark for correct order without neuron. Award two marks if order correct and neuron stated in 1/2.  If no marks awarded but only neuron is in every box award one mark.
	(b)	(so the impulse/response) is fast(er) ✓ prevents damage/stops you getting hurt ✓	1	1 x 1.1	<b>IGNORE</b> involuntary
	(c) (i)	(results/data) not affected by the reaction times of the person stopping the stop clock ✓	1	1 x 3.1b	<b>ALLOW</b> description of reaction time <b>DO NOT ALLOW</b> 'results/data more accurate' without explanation of why <b>IGNORE</b> ref to human error
	(ii)	<b>Any two from:</b> (same) height / position of ruler/hand/fingers ✓  (same length/mass/size) ruler ✓  (use the same) hand/person (to catch with) / <u>participant</u> ✓  (use the same) force to drop the ruler/same person dropping the ruler ✓  (same) stopwatch ✓  (same) angle ✓	2	2 x 3.3a	<b>ALLOW</b> correct description
	(iii)	<b>Any one from:</b> to identify any outliers/anomalies ✓ to calculate a (more accurate) mean ✓ idea of repeatability (to check precision) ✓	1	1 x 3.3a	<b>IGNORE</b> accurate and precise unqualified <b>IGNORE</b> average <b>IGNORE</b> reliability
	(d) (i)	$1.19 \times 10^2$ ✓	1	1 x 1.2	
	(ii)	fatty sheath ✓	1	1 x 1.1

June 2019

Question		Answer	Marks	AO element	Guidance
2	(a)	greater than/more than (19,000) ✓	1	1 x 1.2	
	(b)	<p><b>Any two from:</b>  the number of cases has increased over 3 years/2013-2016/since 2013/ 2014-2016/ each year ✓</p> <p>idea of a large increase initially/2013 – 2014 ✓</p> <p>idea that the increase from 2014 to 2016 is small ✓</p>	2	2 x 3.1a	
	(c)	233% ✓	1	1 x 2.2	
	(d) (i)	<p><b>Any two from:</b>  use antibiotics ✓  idea of isolating infected individuals / avoid physical/direct contact ✓  idea of barrier to prevent exchange of body fluids/face masks/use of tissues/wear gloves ✓  idea of hygiene ✓  vaccinate ✓</p>	2	2 x 2.1	<p><b>IGNORE</b> medical checks  <b>ALLOW</b> example of physical contact</p>
	(ii)	<p><b>Any one from:</b>  whether the person is allergic to it/side effects of drug / risks to patient ✓  issues with developing bacterial resistance ✓  how effective the drug is / what type of antibiotic ✓  dose ✓  idea of genetic differences ✓  is the patient taking other drugs ✓  pre-existing conditions ✓  age ✓  is the infection bad enough to justify their use ✓</p>	1	1 x 2.1	<p><b>IGNORE</b> safety</p> <p><b>ALLOW</b> named example for pre-existing condition  <b>IGNORE</b> confirm infection is bacterial</p>
	(iii)	<i>Salmonella</i> food poisoning ✓	1	1 x 1.1
