General Certificate of Secondary Education

Mark Scheme for Autumn 2021

OCR (Oxford Cambridge and RSA) is a leading UK awarding body, providing a wide range of qualifications to meet the needs of candidates of all ages and abilities. OCR qualifications include AS/A Levels, Diplomas, GCSEs, Cambridge Nationals, Cambridge Technicals, Functional Skills, Key Skills, Entry Level qualifications, NVQs and vocational qualifications in areas such as IT, business, languages, teaching/training, administration and secretarial skills.

It is also responsible for developing new specifications to meet national requirements and the needs of students and teachers. OCR is a not-for-profit organisation; any surplus made is invested back into the establishment to help towards the development of qualifications and support, which keep pace with the changing needs of today's society.

This mark scheme is published as an aid to teachers and students, to indicate the requirements of the examination. It shows the basis on which marks were awarded by examiners. It does not indicate the details of the discussions which took place at an examiners' meeting before marking commenced.

All examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes should be read in conjunction with the published question papers and the report on the examination.

© OCR 2021

# 1. Annotations available in RM Assessor

Annotation	Meaning
<b>✓</b>	Correct response
×	Incorrect response
^	Omission mark
BOD	Benefit of doubt given
CON	Contradiction
RE	Rounding error
SF	Error in number of significant figures
ECF	Error carried forward
L1	Level 1
L2	Level 2
L3	Level 3
NBOD	Benefit of doubt not given
SEEN	Noted but no credit given
I	Ignore

2. Abbreviations, annotations and conventions used in the detailed Mark Scheme (to include abbreviations and subject-specific conventions).

Annotation	Meaning
1	alternative and acceptable answers for the same marking point
✓	Separates marking points
DO NOT ALLOW	Answers which are not worthy of credit
IGNORE	Statements which are irrelevant
ALLOW	Answers that can be accepted
()	Words which are not essential to gain credit
	Underlined words must be present in answer to score a mark
ECF	Error carried forward
AW	Alternative wording
ORA	Or reverse argument

### 3. Subject-specific Marking Instructions

### **INTRODUCTION**

Your first task as an Examiner is to become thoroughly familiar with the material on which the examination depends. This material includes:

- the specification, especially the assessment objectives
- the question paper
- the mark scheme.

You should ensure that you have copies of these materials.

You should ensure also that you are familiar with the administrative procedures related to the marking process. These are set out in the OCR booklet **Instructions for Examiners**. If you are examining for the first time, please read carefully **Appendix 5 Introduction to Script Marking: Notes for New Examiners**.

Please ask for help or guidance whenever you need it. Your first point of contact is your Team Leader.

The breakdown of Assessment Objectives for GCSE (9-1) in Biology B:

	Assessment Objective
AO1	Demonstrate knowledge and understanding of scientific ideas and scientific techniques and procedures.
AO1.1	Demonstrate knowledge and understanding of scientific ideas.
AO1.2	Demonstrate knowledge and understanding of scientific techniques and procedures.
AO2	Apply knowledge and understanding of scientific ideas and scientific enquiry, techniques and procedures.
AO2.1	Apply knowledge and understanding of scientific ideas.
AO2.2	Apply knowledge and understanding of scientific enquiry, techniques and procedures.
AO3	Analyse information and ideas to interpret and evaluate, make judgements and draw conclusions and develop and improve experimental procedures.
AO3.1	Analyse information and ideas to interpret and evaluate.
AO3.1a	Analyse information and ideas to interpret.
AO3.1b	Analyse information and ideas to evaluate.
AO3.2	Analyse information and ideas to make judgements and draw conclusions.
AO3.2a	Analyse information and ideas to make judgements.
AO3.2b	Analyse information and ideas to draw conclusions.
AO3.3	Analyse information and ideas to develop and improve experimental procedures.
AO3.3a	Analyse information and ideas to develop experimental procedures.
AO3.3b	Analyse information and ideas to improve experimental procedures.

Q	uest	ion		A	nswer		Marks	AO element	Guidance
1	(a)	(i)					4	1.1	
			Substance	Used by cells for aerobic cellular respiration	Made by cells for aerobic cellular respiration	Helps to maintain the volume of the cell's cytoplasm			
			Carbon dioxide		<b>√</b>				
			Oxygen	<b>√</b>					
			Water		✓	<b>√</b>			
		(11)	<b>V V V</b>						
		(ii)	surface area slow ✓	1 ✓			2	2.1 1.1	
	(b)	(i)	Heart	Kidney	Skin	Stomach	1	1.1	
		(ii)	Any two fro faeces√ urine √ sweat √ breathing ou				2	1.1	ALLOW any sensible suggestion e.g. crying, vomiting
	(c)	(i)	Active trans	port Diffusi	on Excretio	n Osmosis	1	1.1	

Question	Answer		AO element	Guidance
(ii)	It could burst  It could shrink  There would be no change	1	1.1	

Qı	uestic	on	Answer	Marks	AO element	Guidance
2	(a)	(i)	A V B C D	1	1.1	
		(ii)	A B C D	1	1.1	
	(b)		Cataract  The eyes are too long.  Long-sightedness  The lens cannot become round enough.  A cloudy patch forms on the lens.	2	1.1	Two correct = 1 mark Three correct = 2 marks
	(c)	(i)	Antibiotics ✓	1	2.1	
		(ii)	Any one from: wash hands ✓ avoid touching eyes ✓ don't share towels/makeup/pillows ✓	1	2.1	IGNORE ideas about isolating or staying at home

October 2021

Question	Answer	Marks	AO element	Guidance
(d)	It does <b>not</b> use glucose  It does <b>not</b> use oxygen  It produces oxygen  It produces water	1	1.1	

J257/01 Mark Scheme	October 2021
---------------------	--------------

Q	uest	ion	Answer		AO element	Guidance
3	(a)		auxin ✓	1	1.1	
	(b)		gravitropism ✓	1	1.1	
	(c)		phototropism ✓	1	1.1	
	(d)		meristem ✓	1	1.1	
	(e)		meiosis √	1	1.1	

Q	uest	ion	Answer	Marks	AO element	Guidance
4	(a)	(i)	Skin / mucus ✓	1	1.1	
		(ii)	saliva / (enzymes in) tears / acid / (enzymes in) mucus ✓	1	1.1	
	(b)	(i)	Any two from:  (eating contaminated) food ✓  (drinking contaminated) water ✓  (touching contaminated) surfaces or utensils ✓	2	1.1	ALLOW any sensible suggestion ALLOW qualified examples of named foods e.g. raw chicken
		(ii)	Any two from:  (increased) sweating ✓  hairs lie flat ✓  increased blood flow (to the skin) ✓	2	1.1	ALLOW (contact with) infected animals ✓  ALLOW vasodilation
	(c)	(i)	FIRST CHECK THE ANSWER ON ANSWER LINE If answer = 5.8 award 2 marks $(5.45 + 5.52 + 8.82 + 3.38 =) 23.17 \div 4 \checkmark$ $= 5.7925 = 5.8 (\% to 2sf) \checkmark$	2	1.2	ALLOW 1 mark for any number to 2 sig figs where
		(ii)	Scotland ✓	1	3.2b	no working or value is incorrect  ALLOW ECF
	(d)		Any two from: Thailand has the lowest percentage of positive samples ✓ Germany/France have the highest percentage of positive samples ✓ Brazil sample was the same as UK ✓ France sample was the same as Germany ✓ Denmark/France/Germany/Netherlands and Republic of Ireland have higher (average) percentages than the UK average ✓	2	3.2b	ALLOW any correct conclusion drawn from the data

Q	uestion	Answer	Marks	AO element	Guidance
5	(a)	Benedict's  Biuret  Iodine	1	1.2	
	(b)	correctly shaded leaf ✓	1	2.2	ALLOW any type of shading in the hatched areas
	(c)	The plant was placed in the dark so that it would not <b>grow photosynthesise</b> sespire.  In the dark it will use up all of its existing stores of <b>carbon dioxide starch</b> water.	2	1.2	
	(d)	light ✓	1	2.2	

J	257/0	1	. Ma	rk Scher		October 2021
C	Question		Answer	Marks	AO element	Guidance
6	(a)	(i)	unspecialised (cell) / (a cell that has) not yet specialised / undifferentiated (cell) ✓	1	1.1	
		(ii)	idea that embryos are destroyed in the process ✓	1	1.1	IGNORE embryos are harmed
	(b)		Benefit - Any one from: improvement of symptoms ✓ idea of helping improve future treatment for others ✓ idea that as there is no cure for MS, patients may will be willing to take any risk (as the benefit outweighs the risk) ✓ payment ✓  Risk - Any one from: unknown/unintended side effects ✓ (idea of) rejection of transplanted stem cells ✓	2	2.1	ALLOW trial could make condition worse
	(c)	(i)	(the research is reviewed by) other scientists / experts in that field ✓ check/evaluate method / result / conclusions / originality of work ✓	2	1.1	IGNORE peer unqualified  IGNORE just check work
		(ii)	Any one from: the public ✓ people with the disease ✓ doctors ✓ politicians✓	1	1.1	ALLOW any other valid person

Q	Question		Answer		AO element	Guidance	
7	(a)		DNA/genome ✓	1	2.1	ALLOW genetic material	
	(b) (i)		140,000 ✓		1.2		
		(ii)	FIRST CHECK THE ANSWER ON ANSWER LINE If answer = 90,000 award 2 marks  (140,000 -) 50,000 ✓	2	1.2		
	(c)	(i)	= 90,000 ✓  Any two from: the number (of Tasmanian devils) has dropped rapidly / number has fallen over a short period of time ✓ the population/number of Tasmanian Devils is continuing to drop ✓ idea that the numbers are so low the species could become extinct ✓	2	3.2a	IGNORE just the number of Tasmanian Devils has dropped/fallen/decreased  IGNORE unqualified use of data	
		(ii)	Any two from:  Devil Facial Tumour Disease (DFTD) is communicable / (human) cancer is non-communicable ✓ Devil Facial Tumour Disease (DFTD is not caused by a mutation / (human) cancer is caused by a mutation ✓ some human cancers can be caused by lifestyle factors e.g. smoking, alcohol ✓ ref to genetic cause in humans ✓	2	2.2	Assume "it" refers to Devil Facial Tumour Disease  ALLOW DFTD is transmissible / (human) cancer is not transmissible/not spread from one person to another/not spread by biting	
	(iii)		Immunity Infection Natural selection	1	2.1		

C	Question	Answer		AO element	Guidance	
8	(a)	Any three from: select (two individuals with) desired characteristic ✓	3	2.1	<b>ALLOW</b> example of relevant desired characteristic e.g. more muscle/greater size	
		(individuals are allowed to) breed ✓			IGNORE individuals are allowed to mate	
		idea of choosing offspring with the (same) desired characteristic (for breeding) ✓ repeat process for many generations ✓			IGNORE just repeat process	
	(b)	Fertilisers  Fewer crops are eaten by insects.  It gives plants the ability to survive disease and drought.  Plants obtain more essential nutrients so grow more.	2	2.1	Two correct = 1 mark Three correct = 2 marks	
	(c)	Any one from: cause (unintended) death of other species ✓ cause death of pollinators ✓ idea of bioaccumulation ✓	1	2.1		
	(d)	idea that plants use/absorb carbon dioxide (during photosynthesis/growth) ✓ idea that this balances/offsets/is the same amount as is released when the biofuel is burnt/used ✓	2	2.1		

C	uest	ion	Answer  measuring cylinder/ syringe/ graduated pipette/burette/volumetric flask ✓ AND any one from: more precise measurement ✓ (would allow an) accurate volume (to be measured) ✓		AO element	Guidance
9	(a)	(i)			3.3b	
		(ii)	idea of selecting at least three different enzyme concentrations ✓  AND any one from: reaction to run over a set/stated period of time / measurements taken at regular/stated intervals ✓ measure/record/find the volume of oxygen/gas produced (over time) ✓	2	3.3a	
	(b)		Any two from:  volume of enzyme/catalase ✓ volume of hydrogen peroxide ✓ concentration of hydrogen peroxide ✓ pH ✓ time ✓	2	3.3a	IGNORE concentration of enzyme IGNORE amount of enzyme IGNORE amount of hydrogen peroxide
	(c)	(i)	34 °C ✓	1	3.2a	
		(ii)	idea of investigating more intermediate temperatures around the optimum / suggested intermediates around the optimum ✓	1	3.3b	
	(d)		0°C	1	3.2b	

Q	uestion	Answer		AO element	Guidance
10	(a)	Fatty acids  Fatty acids  Long-chain carbohydrates  Proteins  Sugar	2	1.1	4 correct lines = 2 marks 2/3 correct lines = 1 mark
	(b)	Carbon, hydrogen, and oxygen  Carbon, hydrogen, nitrogen, and oxygen  Nitrogen and carbon  Only carbon	1	1.1	

Q	uestion	Answer			Marks	AO element	Guidance
11	(a)	Any two from: take blood sample ✓  (to perform) genetic test (of DNA or genome) ✓  idea of looking for the recessive/faulty/Tay Sachs allele ✓				2.1	ALLOW saliva ALLOW genetic screening ALLOW faulty gene
	(b)	Heterozygous	✓		1	2.1	
	(c)	T t  probability = 25	T TT Tt 5% / 0.25 / 1/4 ✓	t Tt tt	3	2.1	1 mark for the gametes transferred correctly 1 mark for the completion of the punnet square  ECF for punnet square if gametes incorrect  ALLOW correct use of other letters to represent alleles/genotypes  ECF for %  DO NOT ALLOW ratio
	(d)	Any two from: (genetic) testing of embryos (only allow pregnancy to continue if result is negative) ✓ testing amniotic fluid ✓ gamete/egg/sperm donation ✓ adoption/fostering ✓			2	2.1	ALLOW description of IVF and screening process ALLOW PGD  ALLOW amniocentesis/description of procedure  ALLOW surrogacy if qualified

Q	Question		Answer		AO element	Guidance
12	(a)		Tree ✓	1	2.1	IGNORE producer
	(b)		biomass decreases as trophic level increases/along the food chain ✓	3	3.1a	ALLOW up the pyramid
			AND any two from: uneaten ✓		2.1 x 2	ALLOW correct named examples of uneaten parts
			egestion / undigested parts ✓ (cellular) respiration ✓			ALLOW faeces IGNORE waste
			movement ✓			ALLOW correct named examples of movement
			excretion ✓			ALLOW correct named examples of excretion IGNORE waste products
						ALLOW correct reference to heat
	(c)		FIRST CHECK THE ANSWER ON ANSWER LINE If answer = 30% award 3 marks	3		
			Uses only figures 11 and 37 from diagram ✓ 11 ÷ 37 x 100 ✓		2.2 x 2	
			= 29.729 = 30 (%) (to 1sf) ✓		1.2	29.729 / 29.73 / 29.7 = 2 marks
						<b>ALLOW</b> 1 mark for any number to 1 sig fig where no working or value is incorrect
