MARK SCHEME for the October/November 2013 series

0610 BIOLOGY

0610/63

Paper 6 (Alternative to Practical), maximum raw mark 40

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes should be read in conjunction with the question paper and the Principal Examiner Report for Teachers.

Cambridge will not enter into discussions about these mark schemes.

Cambridge is publishing the mark schemes for the October/November 2013 series for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level components and some Ordinary Level components.

| Page 2 | Mark Scheme | Syllabus | Paper |
|--------|-------------------------------|----------|-------|
| | IGCSE – October/November 2013 | 0610 | 63 |

Mark schemes will use these abbreviations:

| ; / | separates marking points alternatives |
|--------------------------|--|
| R | reject |
| Α | accept (for answers correctly cued by the question) |
| I | ignore as irrelevant |
| ecf | error carried forward |
| AW | alternative wording (where responses vary more than usual) |
| AVP | alternative valid point |
| <u>underline</u> | actual word given must be used by candidate (grammatical variants excepted) |
| () | the word / phrase in brackets is not required but sets the context |
| D, L, T, Q max | quality of: drawing / labelling / table / detail as indicated indicates the maximum number of marks |

| Question | Answer | Marks | Guidance for Examiners |
|-----------|--|-------|---|
| 1 (a) (i) | drawing: O – outline; | | clear, unbroken lines with no shading |
| | S – size; | | larger than original |
| | D – detail; | | |
| | L – label; one label from: seed(s) / (remains of) stigma or style / stem or stalk or pedicel / succulent part or flesh or cortex | [4] | label line must end on structure, even if unambiguous |
| (ii) | length of X – X of Fig.1.1; | | A . 87–90 mm |
| | equivalent length X – X of drawing; | | |
| | formula; length X – X on drawing ÷ length X – X on Fig.1.1. | | mark is independent of other marking points |
| | answer; | [4] | |
| (b) (i) | skin / seed(s) / stalk or stem / both have flesh AW / smooth surface / skin; | [1] | |
