C300U10-1

# MATHEMATICS – Component 1 Non-Calculator Mathematics FOUNDATION TIER

**TUESDAY, 21 MAY 2019** 

- MORNING
- 2 hours 15 minutes

#### **ADDITIONAL MATERIALS**

The use of a calculator is not permitted in this examination.

A ruler, protractor and a pair of compasses may be required.

#### **INSTRUCTIONS TO CANDIDATES**

Use black ink or black ball-point pen.

You may use a pencil for graphs and diagrams only.

Write your name, centre number and candidate number in the spaces at the top of this page.

Answer **all** the questions in the spaces provided.

If you run out of space, use the continuation page at the back of the booklet, taking care to number the question(s) correctly.

#### INFORMATION FOR CANDIDATES

You should give details of your method of solution when appropriate.

Unless stated, diagrams are not drawn to scale.

Scale drawing solutions will not be acceptable where you are asked to calculate.

The number of marks is given in brackets at the end of each question or part-question.

You are reminded of the need for good English and orderly, clear presentation in your answers.

For Examiner's use only

#### Formula list

#### Area and volume formulae

Where r is the radius of the sphere or cone, l is the slant height of a cone and h is the perpendicular height of a cone:

Curved surface area of a cone =  $\pi rl$ 

Surface area of a sphere =  $4\pi r^2$ 

Volume of a sphere = 
$$\frac{4}{3}\pi r^3$$

Volume of a cone = 
$$\frac{1}{3}\pi r^2 h$$

#### Kinematics formulae

Where a is constant acceleration, u is initial velocity, v is final velocity, s is displacement from the position when t=0 and t is time taken:

$$v = u + at$$

$$s = ut + \frac{1}{2}at^2$$

$$v^2 = u^2 + 2as$$

3.

**4.** (a) (i) This table shows the total number of medals won by four countries in the 2012 London Olympic Games.

Country	Number of medals
Brazil	17
Kenya	12
Jamaica	12
South Africa	6

Draw a bar chart to show this information.

[3]

## 2012 Olympic Medals Won

The pictogram shows the total number of medals won by the same four countries (ii) in the 2016 Rio Olympic Games.

Brazil			<b>L</b>
Kenya			
Jamaica		<b>6</b>	
South Africa			

represents 4 medals Key:

Use the information given in the table and pictogram to complete the sentences below:

The total number of medals won by Brazil in 2016 is ...... more than they won in 2012.

The total number of medals won by in 2016 is 4 more than they won in 2012. [2]

(b) In 2016, the total of gold, silver and bronze medals won by China was 70.

They won:

- 18 silver medals,
- the same number of gold medals as they did bronze medals.

How many gold medals did China win?			
		٠.	
	gold medals

5.

The diagram shows a fair 8-sided dice, numbered from 1 to 8, and a fair spinner.

Jamie rolls the dice and spins the spinner. He then multiplies the two scores.

(a) Complete the diagram to show all Jamie's possible outcomes.

Spinner

10	10	20			50	60	70	80
9	9	18		36		54	63	72
×	1	2	3	4	5	6	7	8

Dice

,	Find the probability that Jamie's outcome is an even number greater than 50.	[2]

6.

The line AB is drawn on the 1 cm grid above.

(a) (i) Write down the coordinates of A.

[1]

- A ( ...... , ...... )
- (ii) The point *C* is the mid-point of *AB*.

Mark the position of the point *C* on the grid.

[1]

[2]

(b) The line BD is parallel to the y-axis. Triangle ABD is a right-angled triangle.

Mark the position of point *D* on the grid and write down the length of *AD*.

Length AD = ..... cm

300010

(a) S	Simplify
	(a) S

(i) 2a - b + 5a - 3b,

[2]

(ii) 
$$1 + 4 \times c \times c$$
.

[1]

(b) (i) This formula converts a UK shoe size to a Japanese shoe size.

Japanese size = UK size + 19

Yuto wears a Japanese size 29.5.

What would Yuto's shoe size be in the UK?

[1]

(ii) This table shows the equivalent shoe sizes used in the UK and the USA.

UK size	5	6	7	8	9
USA size	6	7	8	9	10

Complete this formula connecting the UK size and the USA size.

[1]

**8.** The table shows nutritional information about a bottle of the sports drink, *Fitade*.

Nutritional Information	per 100 ml	per bottle
Energy (kilocalories)	28	
Carbohydrate (grams)	6·25	25
of which sugars (grams)	4	16
Salt (grams)		0.4

(a)	Complete the table.	[3]
•••••		
(b)	One afternoon, Tori drinks 3 full bottles of <i>Fitade</i> .	
	How many millilitres of <i>Fitade</i> does Tori drink altogether, and how many grams does this contain?	of sal
	She drinks ml containing grams of salt.	
(c)	Show that sugars are 64% of the carbohydrate in <i>Fitade</i> . You must show all your working.	[1]

- **9.** Petra is shopping with 2 of her friends.
  - (a) She buys a note book and six **identical** pencils.

The note book costs the same as 2 of the pencils. Her bill is £16.80.

(i)	How much does a note book cost?	[3]
•••••		
(ii)	Petra pays with a £50 note. She is given £34.20 change.	
	She tells the shopkeeper,	
	"You have given me too much change."	
	Is Petra correct?	
	Yes No	
	Show how you decide.	[1]
•••••		

© WJEC CBAC Ltd.

(C300U10-1)

(b) The 3 friends go to a café. Here is part of the menu.

Drinks	
Flat white	£4.25
Latte	£3.95
Americano	£2.95
Tea (per pot)	£3.00
Cakes	
Cupcake	£2.00
Cake of the day (per slice)	£4.00

Each of the 3 friends orders one drink and one cake from this menu.

They save a total of exactly £5 using the 3 for 2 offers. Their bill totals £16.50 **after** the saving has been taken off.

[4]	What drinks and cakes did the 3 friends order? You must show all your working.
,	Drinks ,, ,

- **10.** Twelve members of a running club take part in three runs.
  - (a) The table shows the times taken, in hours, by the 12 runners to complete the first run.

1.2	0.9	2.5	1.3	2:1	2.6
1.8	2.0	2·1	2·1	1.5	2.2

(i)	Find the mode of the times.	[1]
(ii)	Find the range of the times.	[1]
(iii)	A runner was chosen at random from those who took part in the first run. Find the probability that this runner took at most 1.5 hours.	[1]

Examiner only

(b) The scatter diagram shows the times it took 10 of the runners to complete the other two runs.

One of these 10 runners was injured during the third run and walked most of (i) the way.

Circle the plot most likely to represent this runner on the scatter diagram. [1]

(ii) The times, in hours, taken by the remaining 2 runners were:

	Runner 11	Runner 12
Second run	1.8	2.2
Third run	1.9	2.4

Plot these times on the scatter diagram.

[2]

Using the information on the completed scatter diagram, what was the difference (iii) between the fastest time for the second run and the fastest time for the third run? Give your answer in minutes. [3]

**12.** The diagram shows the position of two points, *A* and *B*. The scale is 1 cm represents 1 km.

### 1 cm represents 1 km

(a)	Measure and write down the bearing of <i>B</i> from <i>A</i> .	[1]
•••••		
(b)	Point C is 5 km from A and 6 km from B. The bearing of C from B is an acute angle.	
	Complete the diagram to find the position of point <i>C</i> .	[3]

Stepl	n is a baker.	E
(a)	She bakes 42 white rolls and 60 brown rolls.	
	Write the ratio of white rolls to brown rolls in its simplest form.	[2]
	white rolls : brown rolls = :	
(b)	Steph makes scones in three flavours: cheese, fruit and plain.  She makes:  4 times as many fruit scones as cheese scones,  3 times as many plain scones as cheese scones.	
	She sells each scone for the same price. She makes a total of £96 from the sale of all the scones.	
	How much does she make from the sale of the plain scones?	[3]
(c)	Steph makes and sells birthday cakes. Each cake costs £54 to make. She makes a profit of 15% on each cake.	
	What is the selling price of Steph's birthday cakes?	[2]
	Selling price = £
