

**UNIVERSITY OF CAMBRIDGE INTERNATIONAL EXAMINATIONS**  
International General Certificate of Secondary Education

**MARK SCHEME for the October/November 2010 question paper  
for the guidance of teachers**

**0580 MATHEMATICS**

**0580/31**

Paper 3 (Core), maximum raw mark 104

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began, which would have considered the acceptability of alternative answers.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2010 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

### Abbreviations

|     |                            |
|-----|----------------------------|
| cao | correct answer only        |
| cso | correct solution only      |
| dep | dependent                  |
| ft  | follow through after error |
| isw | ignore subsequent working  |
| oe  | or equivalent              |
| SC  | Special Case               |
| www | without wrong working      |
| art | anything rounding to       |
| soi | seen or implied            |

| Qu.   | Answers   | Mark       | Part Marks   |
|---|---|------------|--|
| 1   | (a) (i) 84 cao  | 1          | <b>M1</b> for all numbers written as decimals or for all numbers written as percentages<br><br><b>M1</b> for using isosceles triangle POR or <b>M1</b> for using isosceles triangle ROS then triangle PRS<br><br><b>M1</b> for their “378” ÷ 6 or <b>SC1</b> for 333 seen<br><br><b>B1</b> for attempt to order the numbers<br><br><b>M1</b> for 84 ÷ their total × 360<br><br>Condone size, shape of suns<br><br><b>B1</b> for 3 or 2 correct |
|   | (a) (ii) 31 or 37 cao   | 1          |  |
| (a) (iii) 121 cao                                       | 1   |            |  |
| (a) (iv) 125 cao  | 1   |            |  |
| (b) $55\% < \frac{5}{9} < \sqrt{0.31}$ oe for each term | 2   |            |  |
| 2   | (a) 90°<br>(Angle between) tangent and radius/<br>diameter  | 1<br>1 dep |  |
|   | (b) (i) 54° cao   | 1          |  |
|   | (b) (ii) $\frac{1}{2} \times (180 - 54)$<br>or $180 - 90 - \frac{1}{2}(180 - 126)$<br>or 54/2 followed by<br>(180 - 90 - 27 oe) | 2          |  |
|   | (c) (i) 90° cao   | 1          |  |
|   | (c) (ii) 27° cao  | 1          |  |
